Subject: Internship of Brian Weed

To Whom It May Concern:

Brian Weed worked as a promotions intern during the summer of 2004 for approximately 3 months, and tackled tasks that varied from indoor office work to outdoor set up and tear down of major station events.

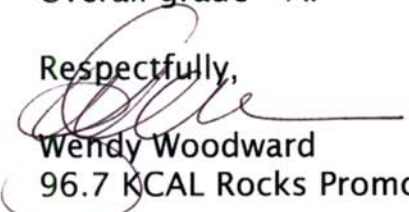

He worked without complaint no matter the task; he was on time, stayed until the last detail had been attended to, and worked well with all members of the promotions team.

He attended staff meetings early in the morning, worked events until late in the evening, all in all going well above and beyond the normal parameters of an average intern. His attitude was easy going, he kept his smile throughout, and portrayed a great number of qualities not normally found in this position.

All in all, it was a pleasurable experience working with Brian, and all of us here in the promotions department wish him well with his future endeavors.

Overall grade - A.

Respectfully,

Wendy Woodward
96.7 KCAL Rocks Promotions Director
